## PROJECTS: -

Worked in TCS – Utilities Delivery Excellence Group (**DEG**) since January 2015 till present date as a Delivery Assurance Facilitator (**DAF**). In this role, I'm responsible for multiple process areas like:-

- Project start-up and wind-up of all projects in Utilities.
- Monitoring risks are properly updated for projects.
- Facilitating Audits and Project Management Reviews (PMRs) of projects.
- Resolving process issues in projects like NCR's, PSU issues, PMR Action Items etc.
- Configuration of Security BCP and ensuring timely BCP drills in accounts.
- Facilitating projects in defining deliverables, defining relevant tasks and ensuring that proper reviews are done like IQA, EQA and FI before delivering to customer.
- Ensuring project level metrics are updated monthly for performance measurement.
- Ensuring eUPP of projects are properly created and released in system.
- Worked and delivered a project in **.NET** as part of TCS **ILP** (3 months). This project was on e-recruitment for a company to recruit new employees effectively through the website.
- Worked as Group Leader in Technical presentation on "Cloud Computing" in 2012.
- Hosted and Organized the event "Questiesta" (online treasure hunt/riddle contest) in TechFiesta 2013 (inter-college competition). It was a big success with huge participation.
- Some examples of personal projects I did are:-
  - Developed a unique all-in-one customizable homepage "**centpage.com**" with PHP & MySQL. It's quite popular now and being used by thousands of people worldwide.
  - Created a funny & popular Video Sharing Website **uvideo.in**
  - Created a Torch Light android application with strobe functionality and screen light
  - Created an android app listing all USSD short codes for all mobile operators in India
  - Created an android app for our TCS DEG Team to connect with each other easily

## OTHER INTERESTS / ACTIVITIES:-

- Being a technology enthusiast, I always keep myself updated on latest technology trends and gadgets. I also like to read and contribute often through online forums and blogs
- I like developing websites often on various topics with CMS like Wordpress or Joomla as a freelancer and also monetizing them. Also, buy & sell websites/domain names
- Creating Android Apps and publishing them on google play store
- Watching and collecting good TV series & movies. Listening to music
- Practise Martial Arts and Physical Fitness as a hobby
